Situation of the Polish Cycling Federation

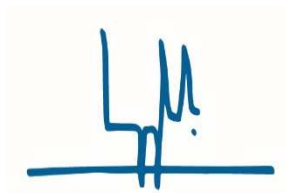

Dear President,

I acknowledge receipt of your letter dated 4 December 2017, the content of which has retained my full attention.

In this regard and, with reference to my previous letter of 1 December 2017, I have to reiterate that the UCI wishes to shed light on the serious allegations which were recently disclosed. To date, I have not received any evidence supporting the fact that the current administration of the Polish Cycling Federation would bear no responsibility whatsoever in connection with the said allegations.

Consequently, I strongly encourage the Polish Cycling Federation to closely cooperate with the Polish Ministry of Sport and Tourism and the public authorities in order to ensure that all appropriate measures are taken to restore good governance and credibility at national level in cycling.

I thank you for your cooperation and look forward for your return.

David Lappartient
President

CC: Union Européenne de Cyclisme (UEC)
